

Environmental, Health & Safety Policy

We at NTPC GE Power Services Pvt. Ltd are committed to providing a safe and healthy workplace by eliminating hazards and reducing EHS risks for all our employees for preventing any accidents, injury and/or ill-health of any employees, service providers, business partners, and other stakeholders. We also aim to take adequate measures to protect the environment by preventing pollution, conserving natural resources, integrating climate actions into business planning and advising & providing solutions to customers on these issues.

The company's Top management recognises the importance of EHS to achieve and sustain excellence in our businesses; therefore, with the cooperation of all employees, support from customer, we endeavor to continually improve our EHS Management System by committing to:

- Strive to achieve zero fatalities by fostering an EHS-first mindset at every level of our organization, and by establishing clear accountability for EHS performance across all roles and functions.
- Incorporating EHS considerations in business decisions & operations, adhering to LSP, complying with minimum EHS standards to promote proactive approach in EHS implementation.
- Promoting awareness among employees, business partners and other stakeholders to develop a positive EHS culture within the organisation.
- Fulfil EHS compliance obligations, customer Specific EHS requirements, Legal and other requirements.
- Maintained all equipment in safe condition through regular inspection, preventive maintenance, and proper storage, ensuring their safe use and compliance with relevant standards.
- Addressing the challenges of climate change by providing and implementing solutions for improving energy efficiency, sustainable resources use, reducing GHG emissions and integrating climate action across own/ customer operations.
- Developing effective planning and monitoring systems to periodically review the organization's EHS performance and identify potential errors and to ensure that corrective actions are initiated in time.
- Continual Improvement of EHS performance through measurable objectives & targets, digital transformation in EHS recordkeeping and AI integration in EHS monitoring.

Communication, consultation, participation and collaboration among all employees and stakeholders will uphold the principles of this policy.

Implementation of this policy will be through line management who are responsible for reducing the risks arising from our operations to as low as reasonably attainable, making proper provision for the well-being of employees, visitors and those in the community who may be affected by our activities.

Line management will also ensure that every meeting is started with a safety moment, continuously celebrate a positive EHS culture, support open reporting, invest in improving our EHS system, monitor our EHS performance as an integrated part of our daily operations, and hold their department accountable for compliance with this policy.

Applicability: All individuals operating under NGSL are expected to fully comply with this policy.
